

6050 CELL PHONE HOLDER

COMPATIBLE WITH TDR 350 AND SC 950 SOIL METERS

VIEW ONLINE:

GO HANDS-FREE WHILE MEASURING SOIL MOISTURE AND COMPACTION

The FieldScout® cell phone holder offers better data visualization while taking measurements at the course or the field.

Tired of reaching into your pocket after reading VWC or soil compaction? Our phone holder is designed to put the power of the FieldScout mobile app where it belongs... right in front of you. Visualize your data and interact with the current session on your connected phone, completely hands-free so you can focus on your data collection.

Easy to Assemble and Install on Compatible Meters

FEATURES AND BENEFITS:

- Designed to install securely on FieldScout TDR 350 or SC 950 soil meters
- Using the FieldScout mobile app while taking measurements is now easier and more powerful
- Cell phone mount includes a quick release and allows phone to be secured at the desired viewing angle
